  - Income, etc...

- **Applying November 1 - December 15 through the Marketplace allows you to have coverage for the upcoming year, beginning January 1, 2018**
- Applying during the current open enrollment period does **NOT** save you from being penalized on your taxes for not being covered for the previous year
- In order for your new coverage to be effective by January 1, 2018, you must apply, choose a plan and pay premiums by December 15, 2017, unless you qualify for a Special Enrollment Period (SEP)
