

# Meet Cassandra Hubbard!

**Cassandra is a Community Health Worker (CHW) at Pierce and Neithercut Elementary Schools.**

- She is involved in the following projects:
  - *Student mentoring at each school*
- Her favorite part about being a CHW is being able to help students, parents and community members with needed resources.
- Her goals for the upcoming school year are to connect and help more students, parents and community members than in years' past and to attend more community events.
- A fun fact about Cassandra is that she loves to laugh and takes great joy in helping serve her community.

*"I love the fact that the staff at Pierce Elementary School come in every day willing to educate and serve the students and their families. I get my joy by finding help with any available resources, this is where I get my gratification from."*

*-Cassandra Hubbard, Community Health Worker*
