

Meet Virginia Riggs!

Virginia is a Community Health Worker (CHW) at Accelerated Learning Academy.

- **She is involved in the following projects:**
 - *Is currently working with local universities to secure donations of dorm furniture (bed frames, mattresses, dressers, night-stands, etc.) for students in Flint Community Schools who may not have their own bed.*
- **Her favorite part about being a CHW is educating high school students and their families on healthy habits and watching them become independent.**
- **Her goals for the upcoming school year are steps she hopes will help her students become more confident, independent, and productive members of their community:**
 - *Help every student at ALA get a Michigan ID and open a savings account*
 - *Help students get a job and teach them to save the money they earn*
- **A fun fact about Virginia is that she used to want to be an astronaut; she even went to space camp in Huntsville, Alabama!**

“Practice doesn’t make perfect. Practice makes permanent.”

-Virginia Riggs, Community Health Worker
