

Dr. Walter Cukrowski

Attorney Jason Waechter

Vision of Justice is a Michigan non-profit organization that provides free cataract surgeries to individuals who are experiencing financial hardship and are legally blind.

Attorney Jason Waechter created Vision of Justice to significantly give back to the community. Providing the means for a blind person to see was the most profound endeavor Jason could think of.

Waechter teamed up with his childhood friend, **Dr. Walter “Wally” Cukrowski** who has earned the reputation of one of Michigan's leading eye surgeons. Dr. Cukrowski is one of the owners of **Michigan Eyecare Institute and East Michigan Eye Center** which are state-of-the-art facilities that provides diagnostic and treatment services for customized eye surgeries to annual eye exams. It has offices in Southfield, Dearborn, Livonia, and Flint, Michigan.

Qualifications to be a candidate for free cataract surgery include being uninsured, being legally blind in both eyes due to cataracts, meeting limited income levels, and being a Michigan resident.
